

COFFEE WITH BENEFITS

CoreJava is a premium functional coffee formulated to support energy, focus, appetite control, and healthy metabolism in one delicious daily cup. Featuring six targeted ingredients including Super Citrimax®, ChromeMate®, L-Theanine, Paradoxine®, and SAFFR'ACTIV®, CoreJava is designed to help fuel productivity while supporting your wellness and weight-management goals. The balanced combination of natural caffeine and L-Theanine delivers smooth, focused energy without the harsh crash or jitters often associated with traditional energy products. Start your morning with a smarter coffee experience designed to help you feel focused, motivated, and in control of your day.
